Endpoint Protection Standard

Company	Raízes Soluções e Tecnologia Ltda (CNPJ 51.467.037/0001-65)
Version	1.0
Effective date	03 November 2026
Next review	03 November 2027
Owner	Security and Privacy Officer, contato@raizesolucoes.com.br
Approved by	Management of Raízes Soluções e Tecnologia Ltda

1. Scope

All laptops and desktops used by Raízes staff and contractors to work with company or customer data.

2. Requirements

- Antivirus and anti-malware protection with real-time scanning and automatic updates (Microsoft Defender or an equivalent product) must be active.
- Operating system, browser and critical applications must receive automatic security updates.
- The host firewall must be enabled.
- Full-disk encryption must be enabled where the operating system supports it.
- Users do not run with administrator rights for daily work, and only licensed software from trusted sources is installed.
- Removable media must not be used to store customer or personal data.

3. Lost or stolen devices

The loss or theft of a device must be reported to contato@raizesolucoes.com.br immediately. We then revoke the device's sessions, rotate affected tokens and passwords, and assess whether personal data was exposed.

4. Verification

Each user confirms the protection status of their computer at least once a month, and the Security and Privacy Officer reviews the results. Exceptions require written approval.

5. Review

This standard is reviewed at least once a year.
