Personal Data Protection Policy

Company	Raízes Soluções e Tecnologia Ltda (CNPJ 51.467.037/0001-65)
Version	1.0
Effective date	03 November 2026
Next review	03 November 2027
Owner	Security and Privacy Officer, contato@raizesolucoes.com.br
Approved by	Management of Raízes Soluções e Tecnologia Ltda

1. Purpose and scope

This policy sets how Raízes protects personal data under the Brazilian General Data Protection Law (LGPD, Law 13.709/2018). It applies to all staff and to all processing of personal data in our products and services. It complements our public privacy policy (https://www.raizesolucoes.com.br/privacidade).

2. Roles

- Raízes acts as controller of its own account and usage data, and as processor of the data our customers load into their systems.
- Data Protection Officer (DPO) / contact for data subjects and the authority: contato@raizesolucoes.com.br.

3. Principles

Purpose, adequacy, necessity (minimization), free access, data quality, transparency, security, prevention, non-discrimination and accountability. We process personal data only for the purpose of the service and the legal basis that applies.

4. Third-party platform data

Data obtained from marketplaces and other platforms is read only with the authorization of the account owner and through official APIs. We do not store personal data of our customers' buyers: only identifiers, dates, statuses, amounts and fees are kept, and automated tests verify that personal fields are discarded before storage.

5. Data subject and seller requests

Requests for access, correction, deletion, portability or information are received at contato@raizesolucoes.com.br or at https://www.raizesolucoes.com.br/excluir-dados. We answer within 15 days and complete deletion within 30 business days after confirmation, except records that must be kept by law. We also assist sellers and platforms that need to delete, update or provide data at the request of a user.

6. Retention

- Active accounts: data is kept while the customer is active.
- After cancellation: inactive data is kept for 90 days and then deleted, except records required by law (for example invoices, 5 years).
- Audit logs: 12 months. Backups: daily, kept for 7 days.

7. Processors and international transfers

Our processors are Supabase (database, United States regions us-east-1 and us-east-2), Vercel (website), Google (AI suggestions and email) and Meta (messaging APIs). International transfers are covered by standard contractual clauses and the processors' security commitments.

8. Security and incidents

Security measures are described in our Information Security Policy. Suspected personal data incidents follow the Incident Response Plan, including notification of customers, sellers, platform partners, data subjects and the ANPD as required by law.

9. Training and review

All staff receive data protection guidance when they join and at least once a year. This policy is reviewed at least once a year, and whenever our processing changes. Last update: 03 November 2026.
